

CERTIFICATE OF ANALYSIS

MONOCLONAL ANTIBODIES

Ferritin Monoclonal antibody (Label)

Product code: BM211

Batch No:

Product presentation: Protein A purified liquid in 20mM phosphate buffer, pH 7.4 containing 0.15M NaCl and 0.05% NaN₃.

Isotype: IgG_{2, a, k}.

Source: Mouse.

Immunogen: Human spleen ferritin.

Application: Recommended as label antibody in Ferritin sandwich assay with capture antibody BM210.

Storage: Store at 2-8°C (short term).
Store below -15°C (long term).

Analysis

IgG concentration at optical density at 280nm using $E_{0.1\%}^{1cm} = 1.4$.

No additional analysis performed at Scipac.

Specifications

> 0.1 mg/ml.

Further analysis to be established by the users, value for titre and other properties will be dependant on the system used.

Results

mg/ml.
